

WHERE TO FIND NEW JERSEY APPLES

**NEW JERSEY APPLE INDUSTRY
ADVISORY COUNCIL**

**A UNIT OF THE NEW JERSEY
DEPARTMENT OF AGRICULTURE**

NEW JERSEY APPLES **THE BEST OF ALL COMES IN FALL**

Farming is the oldest industry in the state.

It's proud heritage traces roots well before the first colonist settled in New Jersey. Many orchards date to colonial times, and the farms have been passed down to each generation. New Jersey produces over 30 different varieties of apples. **Winesap**, originated in New Jersey in the late 1700's, and the **Northern Spy** have been enjoyed for years. Others, such as **Granny Smith**, **Fuji**, **Jonagold**, **Gala** and **Mutsu** are fairly new. Regardless of your tastes, you are sure to be satisfied by the many varieties grown in New Jersey orchards.

Not all locations listed are **Pick Your Own (PYO)** operations. For PYO farms look for this symbol in the listing:

Always CALL AHEAD as harvest dates do vary according to weather conditions and to verify which apple varieties are available before visiting that location.
